

The structure is crafted from solid wood and plywood with a seat suspension system of elastic webbing, fully upholstered in non-deformable polyurethane foam of varying densities and covered in polyester fiber. The quilted stitching with grosgrain inserts, available in tone-on-tone or contrasting colors, lends rhythm and character to the design.

The seat is padded with non-deformable polyurethane foam and topped with virgin goose down. Both the backrest cushion and the bolster armrest cushion are also filled with virgin goose down. The design is completed by elegant steel feet with a polished chrome finish.

Get Back is available in both fabric and leather upholstery.
