

Supporting this dynamic design there is a solid wood and plywood frame, featuring an elastic webbing suspension system. The entire structure is padded with shape-retaining, differentiated-density polyurethane foam and wrapped in polyester fiber, while the steel feet boast a polished chrome finish. The seat and back cushions welcome you with a generous virgin goose down filling, reinforced by a shape-retaining polyurethane foam core to ensure flawless support and hold its shape over time.

Little Wing is available in either fabric or leather.p>
