

The structure is crafted from metal with an elastic webbing suspension system, upholstered in polyurethane foam and covered in polyester fiber.

Steel feet with a matte satin chrome finish complete the design with an elegant and discreet detail.

The seat cushion is padded with virgin goose down, featuring an inner core of non-deformable polyurethane foam of varying densities. Both the backrest cushion and the armrest are filled with Piumafill with a non-deformable polyurethane foam insert.

Piano Solo is available in both fabric and leather upholstery.
