

La struttura in acciaio, dotata di molleggio a cinghie elastiche è interamente rivestita in poliuretano espanso indeformabile e fibra termolegata.

Il relax è completato dal sedile, dove l'imbottitura in poliuretano a densità differenziate incontra la morbidezza della piuma d'oca vergine. La figura del divano dialoga armoniosamente con una rigorosa base in acciaio che dona leggerezza a questo modello.

Forever Young è realizzabile in tessuto o pelle.
